Over 50% of dogs in shelters are there as a result of behavior problems or lack of identification. Euthanasia of dogs for preventable behavior problems is the number killer of dogs in the United States.

MOST BEHAVIOR PROBLEMS ARE CORRECTABLE!

Don't despair! Make sure your dog has a clean bill of health, then contact a professional trainer and/or animal behaviorist for help.

Prevention is always the best cure for behavior problems! Lack of training and physical and mental under

.stimulation (boredom) are primary causes of misbehavior. They can be easily prevented by enrolling in basic training classes (contact us for a referral) and using Kong Dog Toys for healthy physical and mental stimulation.

Kong Dog Toys are widely used and recommended for therapy and prevention of under stimulation, boredom, separation anxiety and other behavior problems. Following are some simple ways Kongs can be utilized to promote good behavior in your dog.

EXAMPLE - Step One: Start with a few clean Kong toys appropriately sized for the largest dog that could access them (see size chart).
NOTE: small breeds need medium Kongs for stuffing.

Step Two: TANTALIZER

Place a little morsel of freeze dried liver, peanut butter or cheese into the little hole on top.

Step Three: DESSERT

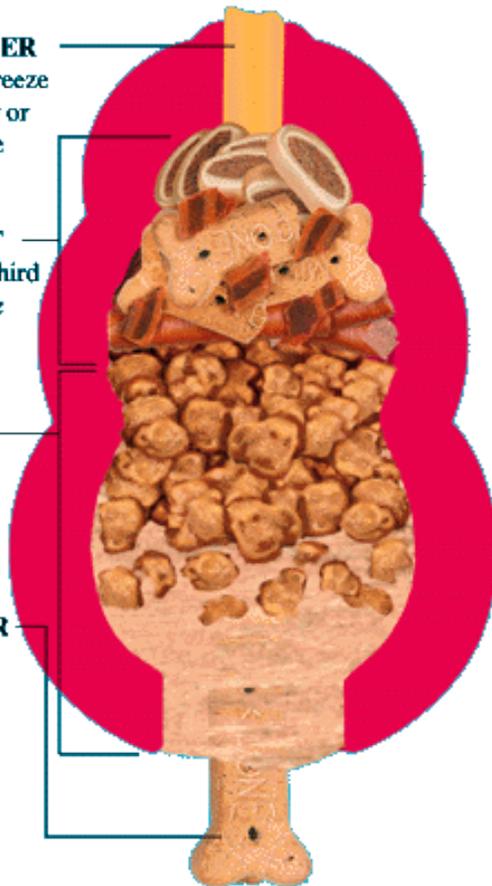

Fill approximately one-third of the cavity with doggie treats such as biscuits, marrow bites, etc.

Step Four: MAIN COURSE

Fill the last two-thirds with canned food or food roll mixed with food nuggets.

Step Five: APPETIZER

Leave a nice tidbit sticking out of the opening. The "easy pickins" will provide an **immediate pay off** and entice your dog to "get serious" about the job.

It is important for dogs to succeed at their "work". Make it easy to remove the kong stuffing at first. **AS THEY BECOME MORE EXPERIENCED, YOU MAY WANT TO MAKE THEIR JOB MORE CHALLENGING - HERE'S HOW:**

1. Pack stuffing tighter.

2. Wedge biscuits inside the cavity using the inside rim of the opening to secure them.

3. FREEZE IT! Very Popular! Try various combinations of canned food, gravy, noodles, rice and mashed potatoes mixed with food nuggets and freeze. KONGSICLES are a favorite with many hot dogs! Put a dab of peanut butter in the small end of the Kong to plug it. Turn it upside down in a cup. Fill it full of water, chicken broth or fruit juice and freeze. Cool doggies! Kongsicles are recommended for outdoor use.

4. CHEESE IT! Mix cheese pieces or cheese spread with food nuggets and microwave until cheese melts. Let it cool to a safe temperature. NOTE - Use a cup to contain the Kong when freezing or microwaving.

As an alternative, consider using a "squeezable" cheese product, one that is easily dispensed from a can via pressing on a nozzle. It makes filling a Kong Toy very easy.

KONG HUNTING

Hide stuffed Kongs indoors and/or out. The hunt is great fun and rewarding. **IMPORTANT!** a. Provide stuffed Kongs randomly so they won't always be associated with you leaving. b. If your dog is unstuffing several Kongs per day, you should appropriately reduce the amount of bowl feeding. c. **CLEAN KONGS THOROUGHLY AFTER USE!** Dishwasher is recommended. Your dog's job will last until the Kongs are unstuffed. You can keep your dog "working" all day if you provide enough stuffed Kongs!

IMPORTANT! Use Kongs Safely! Your dog's safety is your responsibility! **ALWAYS** supervise your dog's use of Kongs until you are confident they can be used safely without you!
